*Saint Mary's Press to Unveil  
Monumental Masterpiece  
at LA Congress*

WINONA, MN—(February 1, 2013)—Saint Mary's Press, a recognized leader in Catholic publishing, is pleased to introduce *The Catholic Children's Bible*. *The Catholic Children's Bible* is the first complete Catholic Bible designed especially for children in second, third and fourth grades.

Unlike any other children's Bible available today, *The Catholic Children's Bible* includes all 73 books of the Good News Translation Catholic Edition Bible along with feature spreads that highlight 125 key Bible passages. The 2,000-page Bible—truly a monumental masterpiece—offers vibrant illustrations to gain and maintain attention, color-coded graphics to ease navigation, sequence frames to support visual learning, word definitions to encourage comprehension, and a colossal size that builds confidence in young learners.

Of particular note, thanks to input from leading children's readability experts, *The Catholic Children's Bible* supports and builds age-appropriate literacy skills through a number of intentional design elements, including larger font sizes, increased line and paragraph spacing, bold typefacing, colored text, simple column dividers, consistent navigation, and minimal hyphenation. The result is a Bible designed to inspire and empower children to read, live, understand and love the Word of God.

*The Catholic Children's Bible* also has an accompanying iPad app. *The Catholic Children's Bible* app allows children to interact with 40 of the Bible's feature passage spreads through games, puzzles and read-along features. The app is available on the App Store.
